

TASK:- To create a landing page that aligns with our theme.

Task Description :-

To Develop a responsive landing page for an event or launch that aligns with the theme.

Steps Taken :-

- Conducted an **analysis of the design** requirements and specifications.
- Created the basic JSX structure for the home page , about page and contact js page..
- Implemented responsive design using **tailwind css media queries to ensure compatibility** across various devices and screen sizes.
- Incorporated **flexbox layouts** for an organized and visually appealing display.
- Added **CSS styles for typography**, color schemes, and overall page aesthetics.

Challenges Faced :-

- Challenge 1: Creating a **horizontal scroll effect when scrolled vertically**.
- Challenge 2: **Designing a custom theme** that outshines others.
- Displaying information in a **clean and organized** way without compromising the responsive design.

Solutions Implemented :-

- **React for fast response** and greater flexibility
- Utilized CSS techniques to adapt the layout based on the amount of content for each team member.

Learnings :-

- Enhanced proficiency in **scroll effects** for responsive web design.

Project Update :-

- The responsive custom landing page has been successfully developed and created.
- Ongoing maintenance and updates will be conducted to address any user feedback or future design modifications.
